

# Case Study

Project: City College Bordesley Green, Birmingham  
Main Contractor: Norwest Holst Ltd — Vinci  
Completed: November 2008

The project requirement was to provide flexible learning space, utilising 14 no movable walls. This allowed the division of one large area into three smaller classrooms.

The walls had a sound rating of 54dB to comply with BB93.

The project was spread over three floors and completed in multiple phases.

Specification:

14 sets of Type 110C Movable Walls  
comprising 84 no panels  
54 dB sound rating  
Top supported  
Grey Melamine
