

Case Study

Project: Hope Hospital Block E
Main Contractor: Balfor Beatty Northern Batch Joint Venture
Completed: January 2009

The project requirement was to provide 9 no movable walls for use in the meeting and training rooms. One was used in a simulated ward environment.

Multispace Systems have subsequently been selected to supply the movable walls for block AB.

Specification:

9 sets of Type 110C Movable Walls
comprising 65 no panels
50 dB sound rating
Top supported
White Melamine
Acoustic infill above head tracks
